ConnectBillion.com

"ConnectBillion.com is not about us, it's about you."

Non Disclosure and Confidentiality Notice!

What is the Problem?

☆ At Traditional Social Networks people spend 10, 20, 30 years or even their entire life-time trying to grow followers without any real growth.

☆People are gambling with content on traditional social networks without knowing whether their content will become viral.

☆ On traditional social networks less than 1% of users have atleast 1 million followers.

☆ The traditional social networks have shady algorithms that shadowban content creators.

What is ConnectBillion.com?

☆ ConnectBillion.com is the best upcoming revolutionary social network, where everyone will be an instant super-star upon signup.

Connectbillion.com

"Connectbillion.com is not about us, it's about you."

ConnectBillion.com Unique Value Proposition / Differentiator

☆ ConnectBillion.com social network users don't ever need to worry about growing their followers, Our users will have an instant and ever growing and automatic mass following based on the ever growing number of users registered on the platform. That means if the total user-base of our social network grows from 0 to 100 million then everyone on the platform will have instant 100 million followers. ConnectBillion.com users will have benefit of equality and standardized growth and equal influence, every user will enjoy being a ultra super-star/mega-influencer having equal influence and equal spot-light from the moment they join our platform. No traditional Social Networks provide such a solution to their users.

Q1) What about close friends circle or professional network?

☆ ConnectBillion.com will provide features for each users to have special private space(section/feed/tab/list) for each groups of special connections and networks, such as close friends, professional network or just any list of special connections to interact and communicate both professionally and with family and friends.

☆ ConnectBillion.com users will be able to manage, create and curate their list of connections and their feeds and add desired people to their different private and specially created lists, feeds. spaces, such as friends, family, or professional network.

What solution will ConnectBillion.com Social Network Provide?

Common Questions and their Answers:

Q2) Close friends and interests content discovery?

☆ ConnectBillion.com users will be able to curate and create multiple different personalized feeds, depending on their needs, interests and requirements.

☆ ConnectBillion.com will use AI feed curation systems and will provide AI driven personalized content discovery and delivery features for curating feeds based on user interests and user personal persona.

What solution will ConnectBillion.com Social Network Provide?

Common Questions and their Answers:

Q3) If everyone has billions of followers then the value will be diminished?

☆ This is generally wrong to say that if everyone will have massive real following so their value will diminish, first we like to understand that massive following promotes massive communication, so if everyone has mode of massive public communication that does not diminish value of their followers, for example if Cristiano has a billion followers and MrBeast has a billion followers then will the value for both diminish? the answer is nope, as they both provide their unique content and characteristics and they are known for their work.

Why is our solution better than anyone else's?

☆ ConnectBillion.com has a unique mission to make everyone on the planet an instant super-star upon signup that no other traditional social network offers.

☆ ConnectBillion.com's users will not be worrying about growing followers and will have instant mass following upon signup.

☆ ConnectBillion.com's users will have an automatic and instant mass following and growth based on the total number of users that are registered on the platform.

☆ ConnectBillion.com's users will instantly have millions to billions of followers based on the platform success and total number of users that will be registered on the platform, giving automatic and ever growing mass following.

Why is our solution better than anyone else's?

☆ ConnectBillion.com will provide each user with features and options to monetize their user-generated-content with advertisement management and control.

☆ ConnectBillion.com will provide super-relevant feed content with power to build and customize feeds using personal persona with ability to create, manage and curate multiple feeds based on interests, topics, list of desired people such as friends, family and professional network or favourite personalities.

☆ ConnectBillion.com will provide each user with powerful content and account management tools like artificial intelligence and personal persona management.

Why is our solution better than anyone else's?

☆ Traditional social networks are less reliable, they all just want everyone to advertise on their platform to grow followers or to reach audiences and that costs a fortune, all or most have shady algorithms that automatically Shadowban-users and Content-creators.

☆ Traditional social networks are less reliable, they all just want everyone to advertise on their platform to grow followers or to reach audiences and that costs a fortune, all or most have shady algorithms that automatically Shadowban-users and Content-creators.

How will we keep users engaged while growing our user-base?

☆ We will make every user on our platform an instant super-star and will provide and serve super-relevant and most-desired content to each user, giving our users experience of being super-star-content-creator or ultra-celebrity and also keep them engaged by providing super-relevant content based on their personal-preferences.

How will we manage the ever growing large market?

☆ To manage our ever-growing user-base, we will hire great vision-driven talents.

☆ We will use Artificial-Intelligence as a mass-moderator and management technology.

☆ We will use Artificial Intelligence to cut costs such as operational, management and human resource, thus will be able to save a big portion of revenue as net-profit.

☆ We will build and implement Smart Technologies such as Smart AI Moderation System and Smart Spam Blocking and Prevention System.

Business Model & Revenue Streams?

☆ Pay-Per-Post Model (PPP):

- Users will be charged per post, with additional fees based on AI content enhancement, moderation, and platform tools.

- Our standard charges will be between 1-20 USD per post or more depending on the geography and location, but we will do our best to reduce per post cost to 1-5 USD only(if possible). The per post charges may go higher than anticipated due to different reasons such as operational expenses, content and data delivery and bandwidth utilization and network charges, etc.

Business Model & Revenue Streams?

☆ Advertising:

- Businesses will be able to book advertisements and bid for ad placement on user-generated content and platform-wide.

☆ Commission from Wealth Creation Opportunities for Users:

- Content Creators will be able to monetize their user generated content with their selection of advertisers upon request, setting their own rate of advertisement. .

Business Model & Revenue Streams?

☆ Premium AI Tools:

- Users will be charged for usages of premium AI enhancement and moderation features.

☆ Sponsored Content:

- Website-Based Advertising: Platform-wide ad placements for businesses and brands with sponsored advertisements, plus users and businesses can bid for Ad placement on specific content and website layouts.

Business Model & Revenue Streams?

☆ Ecommerce shopping and Marketplace Features:

● Users will be able to create their ecommerce shop and marketplaces, we will get commission on sales and fee associated with store creation and for providing such features and technologies to our users and merchants.

Note: This is our long-term vision to implement and provide ecommerce features and capabilities.

How will we maximize our revenue?

☆ ConnectBillion.com will maximize our revenue via multiple revenue streams such as pay-per-post and advertising business model, Commission from Wealth Creation Opportunities for Users, Offering Premium AI Tools, and Sponsored Content and by providing eCommerce capabilities and marketplace features.

☆ ConnectBillion.com will have millions and even billions of regular user-generated-content on the platform, thus our multiple revenue streams will generate millions to billions of dollars regularly.

☆ ConnectBillion.com will have millions and even billions of paying users, as millions and billions of people will join and use our platform.
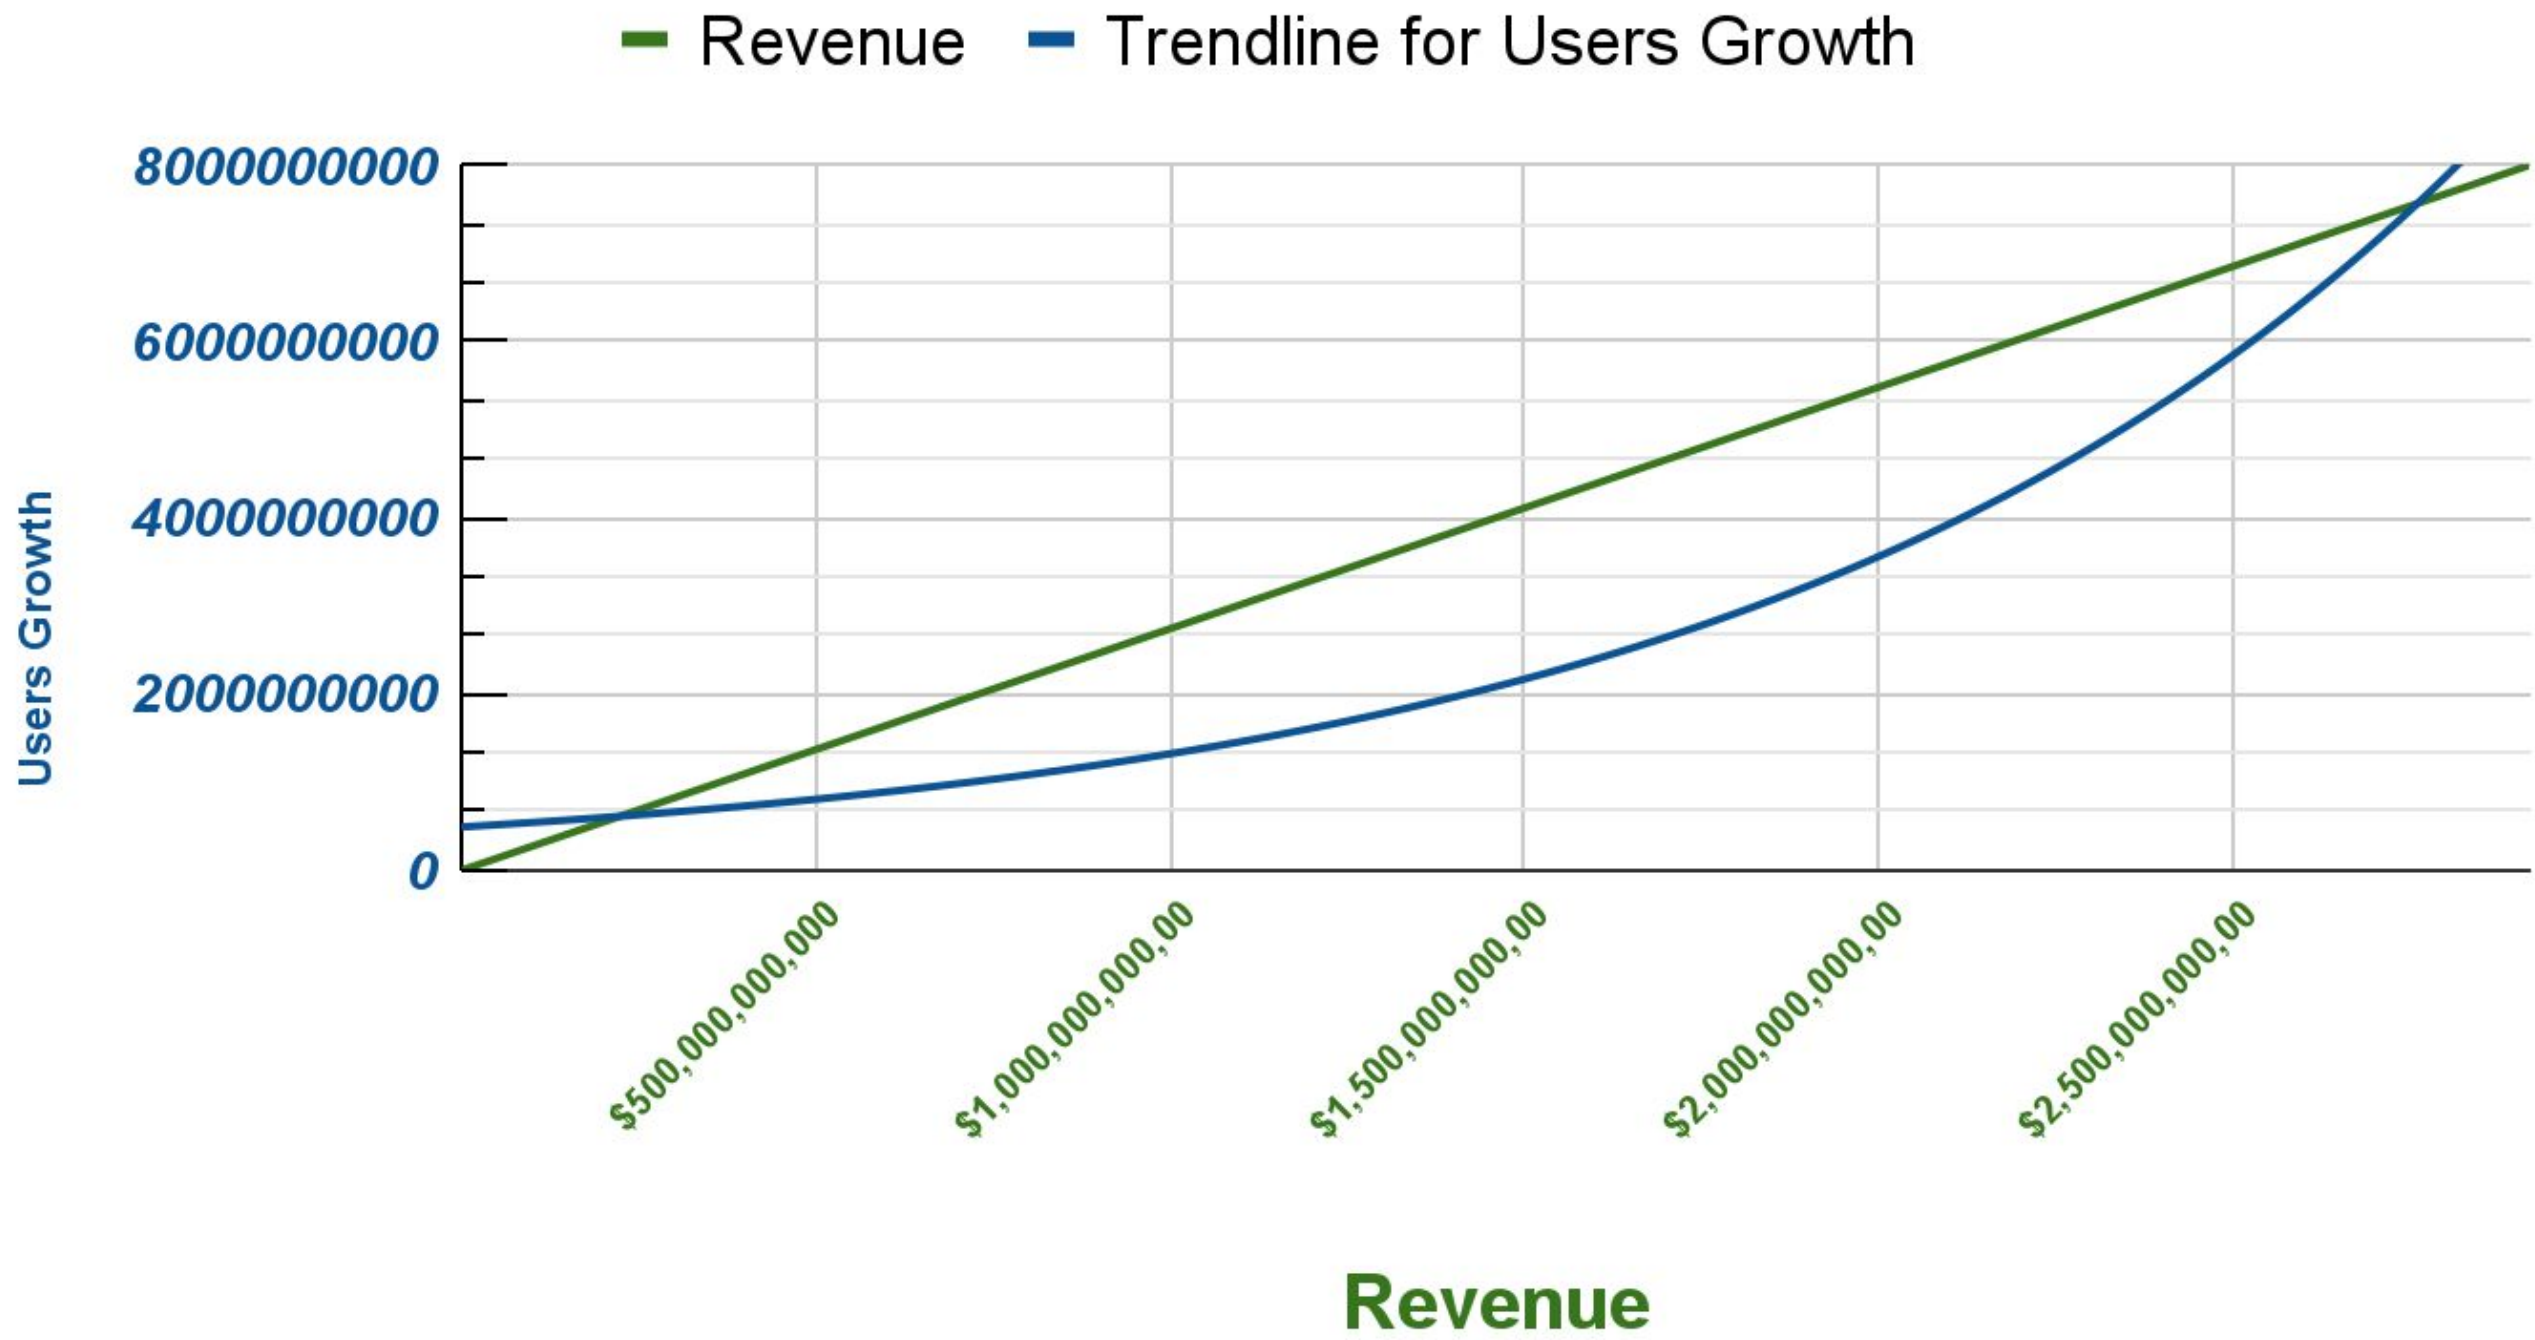

What is our projected revenue?

☆ After the initial launch and perfecting our platform, services, and technologies, we will have massive user-growth and revenue and enough recurring cash-flow to sustain for hyper-scalability and hyper-growth using a pay-per-post and advertising business model and other sources of revenue streams.
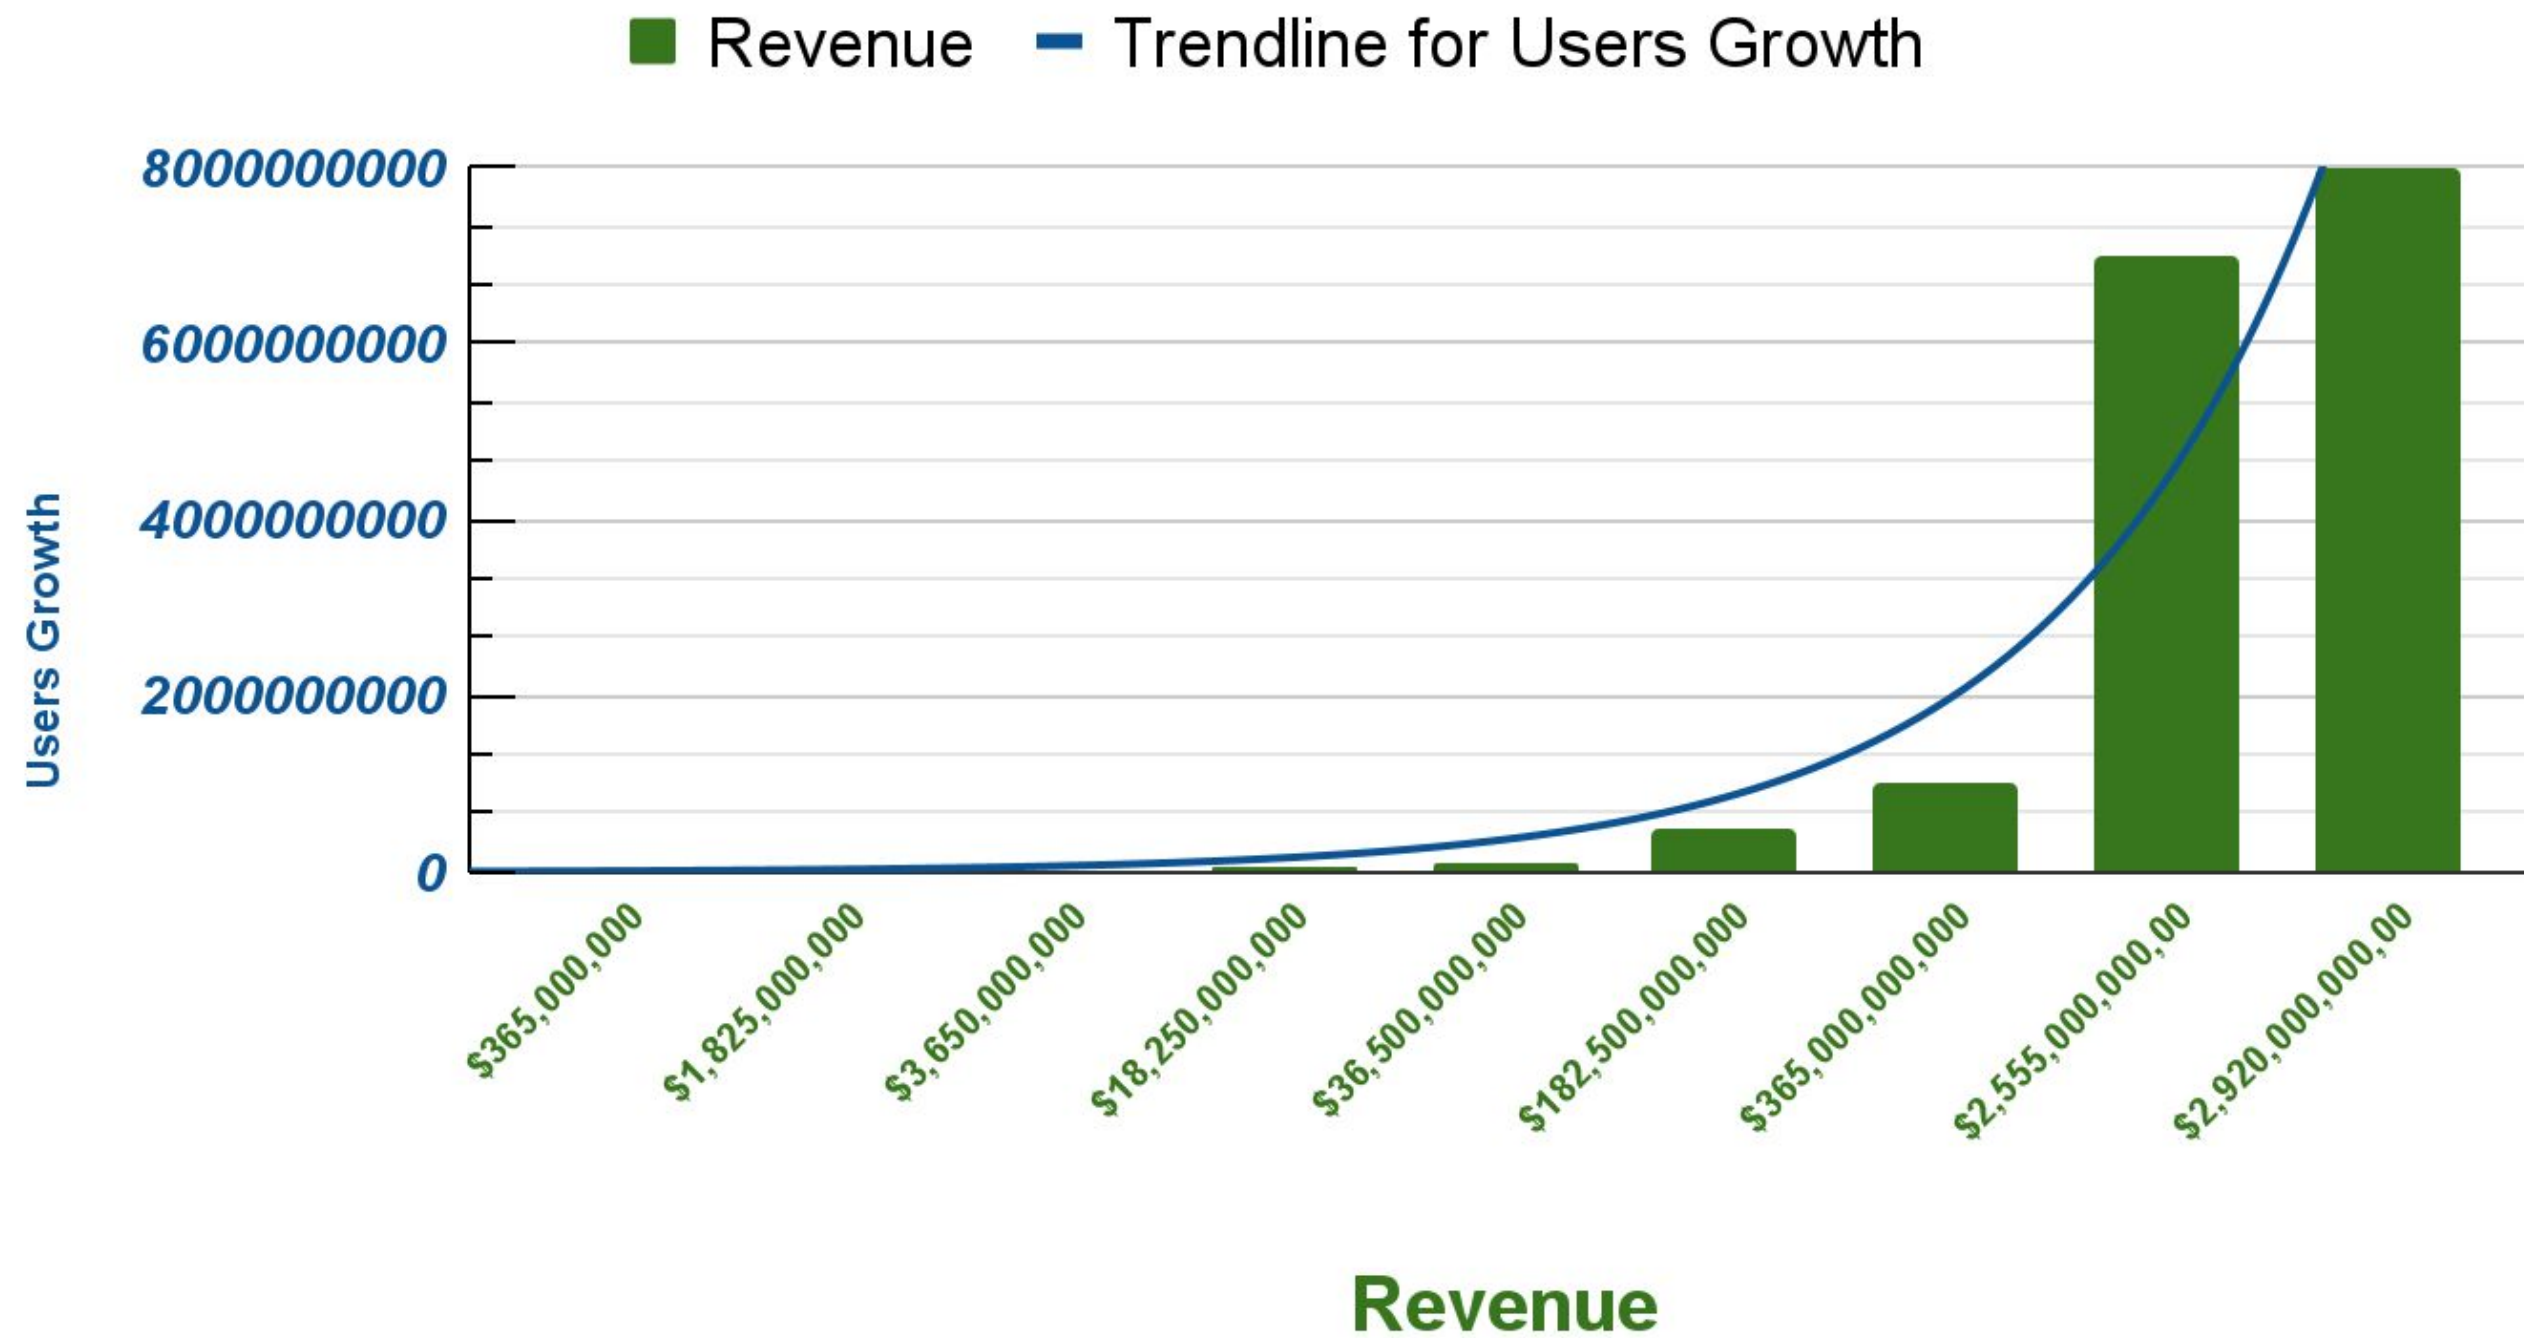

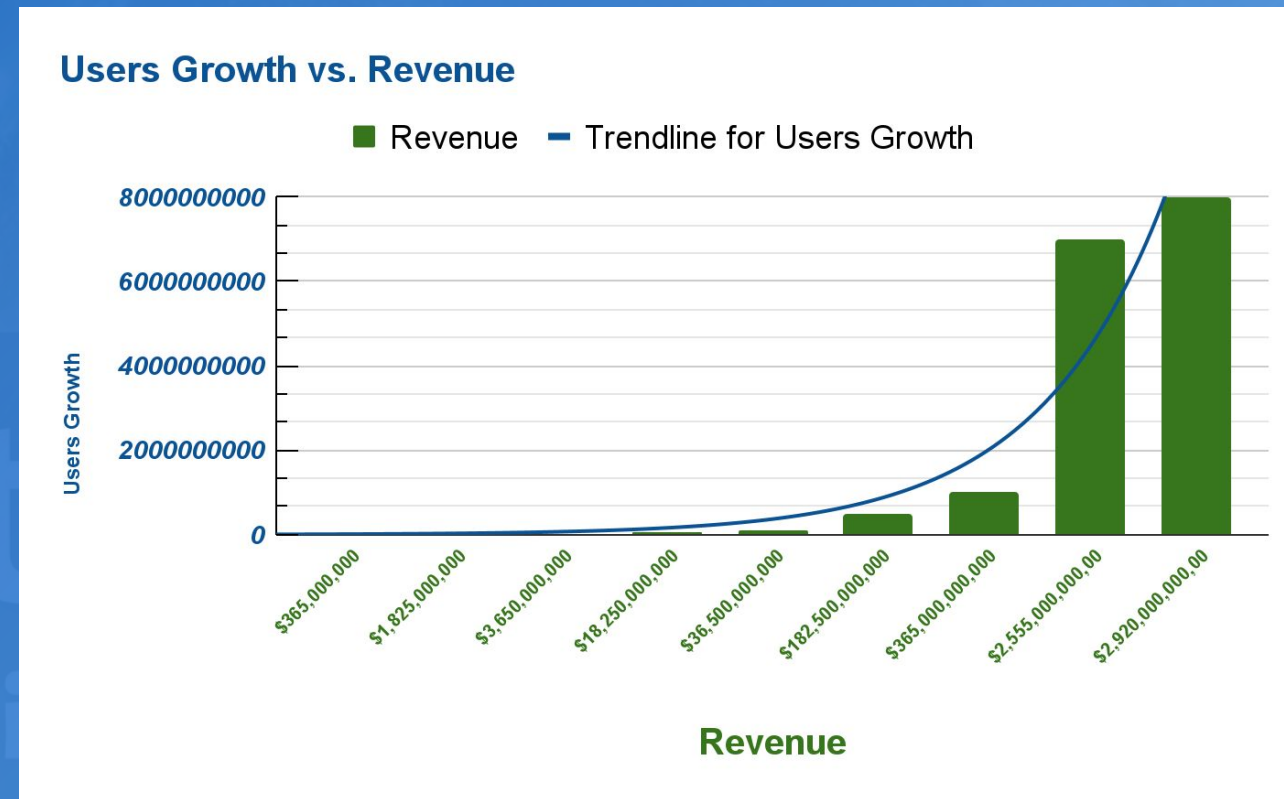

What is our projected revenue?

What is our projected revenue?

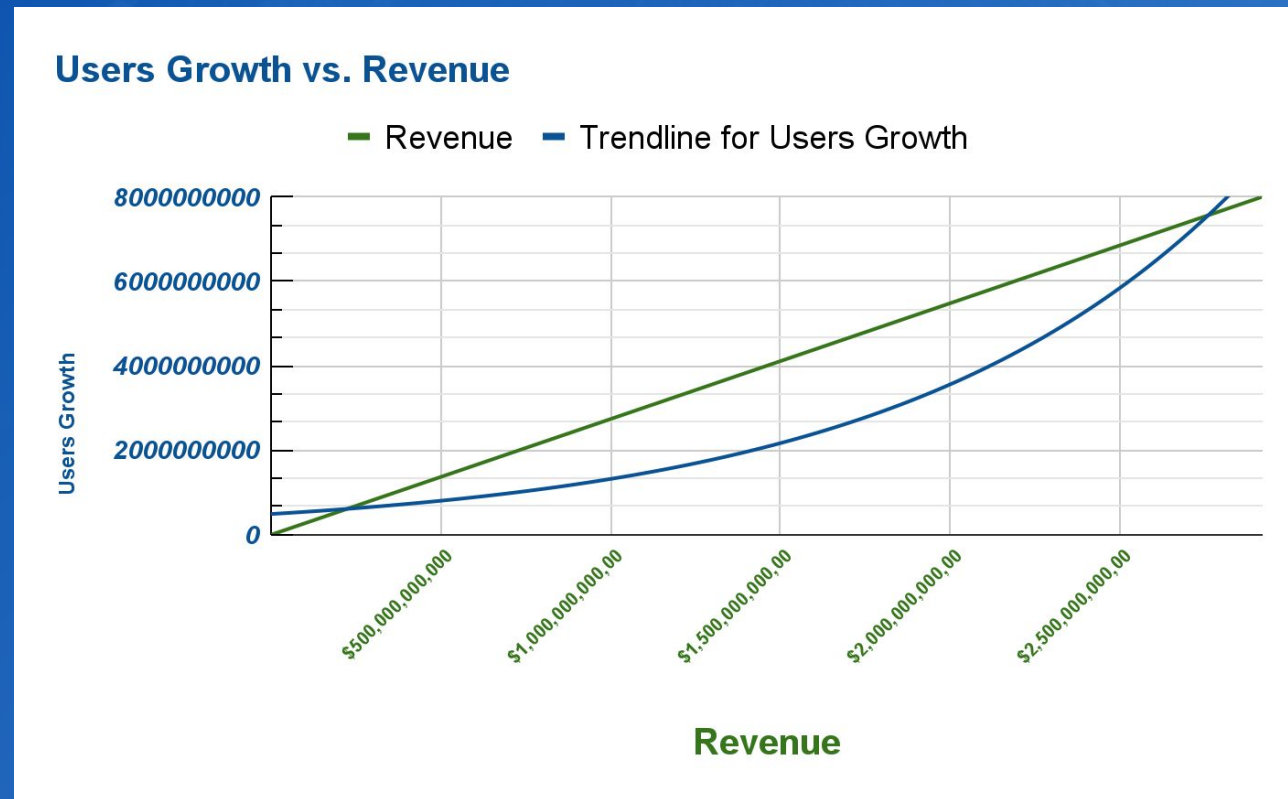

Users Growth vs. Revenue

■ Revenue — Trendline for Users Growth

Users Growth (y-axis): 0, 2000000000, 4000000000, 6000000000, 8000000000

Revenue (x-axis): $365,000,000 — $1,825,000,000 — $3,650,000,000 — $18,250,000,000 — $36,500,000,000 — $182,500,000,000 — $365,000,000,000 — $2,555,000,000,00 — $2,920,000,000,00

What is our projected revenue?

Users Growth vs. Revenue

Revenue — Trendline for Users Growth

Users Growth vs. Revenue

■ Revenue — Trendline for Users Growth

☆ We predicted the revenue based on the daily posting potential of each user because there are 365 days in a year, as total number of users x 365 = answer.

Note: The actual results and performance may vary. In this scenario, the cost per post for users was $1.

What is our projected revenue?

☆ In the provided charts you can see that we have predicted $365 million revenue with just 1 million of users, and $36.5 billion with 100 million users, and $365 billion revenue with 1 billion users. We calculated based on the assumption if users posted each day of the year, as total users x 365. Note: The actual results and performance may vary. In this scenario, the cost per post for users was $1.

What is our projected revenue?

☆ We are for profit business and will maximize and generate very big and massive revenues by providing a competitive and state of the art platform.

☆ We will use a pay-per-post and advertising business model to sustain growth and to cover our costs such as but not limited to research and development(R&D), marketing and advertising, operational, management, administrative, legal, patents, human-resource, real estate and other business-related expenses.

What product and service will we bring to the market?

☆ We will build an innovative social network website and app platform.

☆ We intend to primarily make our apps available on our platform instead of completely relying upon third-party app stores and their apis.

☆ Our apps may become available on most third-party app stores.
